

Aquaglide

Freefall™ Extreme

Description Extra large, commercial grade slide and play station for water.

Specifications 18'L x 10'W x 10'H

Extra large, commercial grade play station for on water use. 'Little brother' to the Summit, there's nothing little about it! Combines 3 distinct play areas to provide unlimited entertainment. Features climbing, sliding, and a large enclosed splash station for playing or relaxing. Feel your heart in your throat as you surge toward the water on this 10 foot tall monster. Modular design allows the addition of virtually unlimited options.

SwimStep access platform sold separately.

Freefall™ Extreme Technical Features

Duratex™

Commercial grade fabric reinforced PVC material.

Ideally suited for watersports, Duratex™ material is the finest, commercial grade fabric reinforced PVC available. Each Aquaglide Platinum item uses Duratex™ material for maximum strength and durability. The Freefall™ incorporates 1000d fabric fused with layers of 28 oz PVC.

HA Weld™

Hot air-welded seams for high quality and outstanding durability.

'HA' or Hot Air Welding is the process used to fuse Duratex™ material seams for years of trouble-free use. HA welding produces clean, strong seams with no unsightly glue marks or splits.

UP Grip™

Incorporates convenient climbing handles.

Convenient climbing handles allow for boarding and/or climbing while staying out of the way for other activities. The Freefall™ incorporates 5 sturdy handles for climbing and stability while on board.

Interloc™

Heavy duty stainless fittings and convenient Interloc straps for modular use.

Aquaglide Platinum items connect to one another using the Interloc™ system. Soft webbing offers some flexibility, while remaining tough enough for years of service. Only Interloc™ blends the convenience of a cinch with the security of a locking connection.

3 Year

Limited Warranty against any and all manufacturing defects.

Each Aquaglide Platinum™ item offers a warranty covering any and all manufacturing defects for an extended period of time. The Freefall™ includes a 3 Year warranty for recreational use, a 1 year warranty for commercial use.

UV Block™ Materials specially treated for high resistance to the sun's damaging rays.

Each Aquaglide Platinum item is treated with UV Block™, the highest grade 3-year UV coating available. While we recommend periodic maintenance with additional UV coatings, there is no substitute for having UV Block™ incorporated into the material right from the start. UV Block™, for years of trouble-free use.
